

**REMARKS**

Favorable reconsideration and allowance of the subject application are respectfully requested in view of the following remarks.

**Summary of the Office Action**

The specification stands objected to.

The drawings stand objected to.

Claims 13-16 are allowed.

**Summary of the Response to the Office Action**

Applicant amends the specification by this amendment. Claims 13-16 remain currently pending.

**Objection to the Specification**

The specification stands objected to. The Office Action notes that the current status of the parent application of the present application should be referenced. Applicant amends paragraph [0001] of the specification to include the current status of the parent application of the present application. Accordingly, Applicant respectfully requests that the objection to the specification be withdrawn.

**Objection to the Drawings**

The drawings stand objected to. The Office Action notes that references signs “10” and “14” shown in FIGs. 1 and 2 are not mentioned in the description. Applicant amends the specification to address the Examiner’s concerns. Accordingly, withdrawal of the objection to the drawings is respectfully requested.

**The Disposition of the Claims**

Applicant appreciates the Examiner’s allowance of claims 13-16 as indicated at paragraph 3 of the Office Action. While Applicant agrees that these claims are allowable and

patentably distinguish over the prior art, Applicant respectfully does not acquiesce that patentability resides only in the features expressed at paragraph 4 of the Office Action, nor that each and every feature recited in the claims is required for patentability.

### **Conclusion**

In view of the foregoing, withdrawal of the objections and allowance of the present application are earnestly solicited. Should there remain any questions or comments regarding this response or the application in general, the Examiner is urged to contact the undersigned at the number listed below.
